

MOAZZAM PASHA

Frontend Engineer · React.js · Next.js · UI Engineering

Bahawalnagar, Pakistan | +92 308 1022824 | moazzampasha356@gmail.com | LinkedIn | moazzam35.github.io/portfolio

Frontend Engineer specializing in React.js and Next.js with a track record of shipping production-grade web applications — from e-commerce SPAs to automotive marketplaces. Skilled in building performant, accessible UIs with Tailwind CSS, engineering reusable component systems, and implementing fluid micro-interactions with Framer Motion and GSAP. Experienced with REST API integration, client-side performance optimization, and CI/CD deployment via Vercel and Netlify.

TECHNICAL SKILLS

Core Stack:	React.js (Hooks, Context API, Custom Hooks), Next.js (SSR/SSG/ISR), JavaScript ES6+, TypeScript
Styling:	Tailwind CSS, CSS Modules, Bootstrap, Flexbox, CSS Grid, Responsive / Mobile-First Design
Animation:	Framer Motion, GSAP (ScrollTrigger, Draggable), CSS Transitions, Scroll Animations
API & State:	REST API Integration, Axios, Fetch API, Async/Await, Client-Side Caching, Debouncing
Tooling:	Git, GitHub, Vercel, Netlify, GitHub Actions (CI/CD), Postman, Vite, Webpack
Performance:	Lighthouse Auditing, Lazy Loading, Code Splitting, Image Optimization, Core Web Vitals

KEY ACHIEVEMENTS

Performance Uplift. Boosted Lighthouse scores via lazy loading, code splitting, and client-side API caching — reducing re-renders and network overhead across 8+ production projects.

Component Architecture. Architected reusable component libraries with custom React Hooks and Context API, cutting code duplication by ~40% and accelerating feature delivery across projects.

SEO & Load Speed. Built SSR-powered automotive marketplace with Next.js, improving initial page load by ~60% vs. a CSR baseline with crawlable, SEO-optimized product pages.

PROFESSIONAL EXPERIENCE

Frontend Engineer — Freelance & Independent Projects

June 2024 – Present

Remote · Bahawalnagar, Pakistan

- Designed, engineered, and deployed 8+ production web applications using React.js and Next.js across automotive, e-commerce, and data-explorer domains.
- Architected reusable component libraries reducing code duplication by ~40% and accelerating feature delivery across projects.
- Implemented scroll-driven animations, parallax effects, and drag interactions using Framer Motion and GSAP, elevating UX to agency-level quality.
- Delivered pixel-perfect, mobile-first layouts with Tailwind CSS tested across 5+ browsers; established CI/CD pipelines via GitHub + Vercel/Netlify.

SELECTED PROJECTS

Wheelzy Dashboard — Automotive Admin Platform

Next.js · Tailwind CSS · Framer Motion · Dark/Light Theme · Admin Panel · 2026

Enterprise-grade admin dashboard for a luxury automotive marketplace with real-time vehicle management, analytics panels, tokenized dark/light theme engine (no FOUC), and sub-100ms interaction via optimistic UI + Framer Motion preloading.

Wheelzy — Automotive Marketplace

Next.js · React.js · Framer Motion · GSAP · Tailwind CSS · SSR · Vercel

SSR car marketplace with ~60% faster initial load vs. CSR. GSAP ScrollTrigger parallax, vehicle card carousels, spring-physics transitions, and Lighthouse CI for Core Web Vitals (LCP, CLS, FID).

ShopCraft — E-Commerce SPA

React.js · Context API · Axios · Tailwind CSS · REST API · Vercel

Full-featured SPA consuming a 50+ product REST API with real-time search, multi-criteria filtering, persistent cart state via Context API + useReducer, and Axios interceptors for error boundaries.

Country Cards Explorer

React.js · REST Countries API · Tailwind CSS · Netlify

Data explorer for 195+ countries with debounced search (~70% fewer API calls), multi-criteria filtering, and intersection-observer lazy loading cutting initial render time in half.

Pokémon Data Explorer

Vanilla JavaScript ES6+ · HTML5 · CSS3 · PokéAPI · GitHub Pages

Zero-dependency explorer for 800+ Pokémon — custom fetch batching, LRU-style caching, type filtering, fuzzy search, and stat/evolution drill-down views in pure modular ES6+.

EDUCATION

Bachelor of Science in Information Technology (BS IT)

Expected 2025

The Islamia University of Bahawalpur — Bahawalnagar Campus, Punjab, Pakistan · CGPA: 3.4 / 4.0
