SUMMARY

Full-Stack Developer with hands-on experience designing, building, and deploying production-grade web applications using React.js, Next.js, Node.js, and Express.js. Delivered 10+ full-stack projects spanning AI-powered tools, e-commerce, hotel and hospital management, and automotive marketplaces — combining clean backend architecture with responsive, high-performance interfaces and Lighthouse scores above 90.

EXPERIENCE

Independent Full-Stack Developer — Self-Directed Projects *June 2024 – Present*
Remote, Bahawalnagar, Pakistan

- Designed and deployed multiple full-stack web applications using React.js, Next.js, Node.js, Express.js, and Prisma ORM across AI tooling, e-commerce, automotive, and admin-dashboard projects.
- Built end-to-end platforms covering database schema design, REST API development, JWT authentication, and Stripe payment integration.
- Developed reusable React component libraries and custom hooks to reduce code duplication and speed up feature delivery across projects.
- Set up CI/CD pipelines with GitHub Actions and deployed applications through Vercel and Netlify for consistent, repeatable releases.

EDUCATION

B.S., Information Technology *Expected 2026*
The Islamia University of Bahawalpur — Bahawalnagar Campus | CGPA 3.4 / 4.0
