PROFESSIONAL SUMMARY

Full-Stack Developer experienced in building and deploying production-grade web applications with React.js, Next.js, Node.js, and Express.js. Skilled in REST API design, relational database architecture (PostgreSQL, MySQL) with Prisma ORM, JWT authentication, and Stripe payment integration. Shipped 9+ full-stack platforms across e-commerce, marketplace, and admin-dashboard domains, pairing clean backend architecture with responsive, high-performance UI and automated CI/CD deployment.

WORK EXPERIENCE

Full-Stack Engineer

June 2024 - Present

Freelance & Independent Projects — Remote (Bahawalnagar, Pakistan)

- Designed and deployed 9+ production-grade full-stack web applications using React.js, Next.js, Node.js, Express.js, and Prisma ORM across e-commerce, automotive, and admin-dashboard domains.
- Engineered end-to-end platforms covering database schema design, REST API development, JWT authentication, and Stripe payment integration, cutting manual QA effort by 25% through consistent, reusable UI patterns.
- Architected reusable React component libraries and custom hooks, reducing code duplication by ~40% and accelerating feature delivery across projects.
- Automated CI/CD pipelines with GitHub Actions and deployed applications via Vercel and Netlify, cutting release turnaround time by 50% and eliminating manual deployment errors.
- Elevated UX with scroll-driven animations and interactive motion using Framer Motion and GSAP, lifting average client-facing engagement time by 30%.

FEATURED PROJECTS

Aristocraft — Full Stack Developer

Live: aristocraft-nine.vercel.app | GitHub: github.com/moazzam35/aristocraft

Tech Stack: Next.js, React, Node.js, Express.js, Prisma ORM, PostgreSQL (Neon), Tailwind CSS, GSAP, Framer Motion

- Developed a full-stack e-commerce platform with a customer storefront (shop, product pages, cart, wishlist, checkout, order tracking, reviews, blog) and an admin dashboard with real-time analytics.
- Engineered 20+ REST API endpoints for authentication, products, orders, categories, reviews, and Stripe payment intents using Next.js API routes and Prisma ORM.
- Modeled a relational PostgreSQL (Neon) schema for users, products, orders, reviews, and categories, including seed scripts for test data.
- Established JWT-based authentication (login, register, password reset) and integrated Stripe for secure end-to-end checkout, reducing checkout friction by 15% and managing global cart/wishlist state with Zustand.
- Delivered a fully responsive, modern UI with Framer Motion and GSAP animations, achieving a 90+ Lighthouse performance score.

Wheelzy — Full Stack Developer

Live: wheelzy-seven.vercel.app | GitHub: github.com/moazzam35/wheelzy

Tech Stack: Next.js, React.js, Node.js, Prisma, PostgreSQL, Tailwind CSS, GSAP, Framer Motion

- Launched a full-stack automotive marketplace with a companion admin dashboard, owning backend API/database architecture and the customer-facing SSR frontend.
- Structured REST APIs and relational database models for vehicle listings, admin operations, and real-time inventory management.
- Delivered an admin panel with real-time vehicle management and analytics, achieving sub-100ms interactions through optimistic UI updates.
- Improved initial page load by ~60% versus client-side rendering using Next.js SSR, combined with GSAP ScrollTrigger parallax effects.
- Enforced JWT authentication and a fully responsive UI, monitored via Lighthouse CI to maintain performance scores above 90.

Wheelzy Dashboard — Frontend Developer

Live: wheelzy-dashboard.vercel.app | GitHub: github.com/moazzam35/wheelzy_Dashboard

Tech Stack: Next.js, React.js, Tailwind CSS, Framer Motion

- Created a standalone analytics and admin dashboard with a premium, responsive UI and dark/light mode support.
- Planned a scalable dashboard architecture with reusable components for data visualization, cutting new-view development time by 30%.
- Refined smooth, interactive UI transitions with Framer Motion for a polished, professional user experience.

EDUCATION

Bachelor of Science in Information Technology (BS IT)

Expected 2025

The Islamia University of Bahawalpur — Bahawalnagar Campus, Punjab, Pakistan | Final CGPA: 3.4 / 4.0

Languages: Urdu (Native), English (Professional) | Availability: Open to Remote-First Roles Globally

SKILLS

Frontend: React.js (Hooks, Context API), Next.js (App Router, SSR/SSG/ISR), JavaScript (ES6+), TypeScript, Tailwind CSS

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Stripe API Integration

Databases & ORM: PostgreSQL, MySQL, Prisma ORM

State Management: Zustand, Context API + useReducer

Animation & UI: Framer Motion, GSAP, Responsive & Mobile-First Design

Tools & Deployment: Git, GitHub, GitHub Actions (CI/CD), Vercel, Netlify, Postman, Vite, Webpack, Lighthouse
